

Multi-Segment Swept Wing — Convective Heat Flux
M=5.0, h=30 km, AoA=1.0°, Turb. BL, Tw=373 K

Lower (windward) surface
($\delta = \text{wedge} + \text{AoA} = 1.0^\circ$)

Upper (leeward) surface
($\delta = \text{wedge} - \text{AoA} = 1.0^\circ$)
